These were supplemented last night by paims and ferns placed about the halls and rooms, tendrils of green twined about the stairways and chandeliers, and bunches of roses resting on mantels and brackets. In this room the decorations were of the same general character as those elsewhere in the house.

of leading Alliance officials, is attempting to get control of not only all the present Alliance stores in the country, but 4,600 additional ones the trust proposes starting. Statements are made by D. M. Full-wiler, business agent for the Alliance in Illinois; S. C. Whipple, of the Whipple Harrow Company, St. John's. Mich., and William Deering & Sons, Chicago, that place certain prominent Alliance leaders in a compromising position.

Alonzo Wardell, a member of the National Executive Committee of the Farmers' Aliance and Industrial Union, admits, so the Inter-Occar says, that he is hired by the National Union Company, the agency through which the Cordage Company is operating, and also admitted to E. E. Whipple that he thought the National Cordage Company was behind or largely interested in the National Union, as he (Wardell) knew that Mr. Waterbury, the National Cordage president, gave his check to the Union Company last summer for \$125,000 and he (Wardell) had it in his possession several days showing it to the boys while they were in New York last June.

while they were in New York last June.

**SECRET MEETING.*

This June meeting referred to was a secret one the National Union had called of the State Alliance business agents it had induced to go into the scheme, that company paying all expenses. It is also stated that Mr. Whipple has a letter from L. Waterbury, president of the National Cordage Company, stating that they were largely interested in the Union Company and highly recommending it.

The part of the scheme that has appealed so powerfully to the Alliance agents is the commission of one-half of 1 per cent. allowed to each State agent for all the goods sold in his territory.

Yesterday in Atlanta Judge Clarke appointed T. W. Garreit receiver of the Atlanta and Florida road at the request of the creditors. An interesting complication is likely to result, from the fact that Judge Emory Speer, of the United States Court at Macon, appointed Mr. R. H. Flant receiver of the same road, under a bill flied by the East Tennessee road. It is probable that the conlict between the United States and State courts over the receivership of the East Tennessee road. It is probable that the conlict between the United States and State courts over the receivership of the repeated over the Atlanta and Florida, which is a small independent road running from Atlanta to Fort Valley, a distance of 140 miles.

The views of the New York Produce Exchange in regard to the proposed legislation against the sale of options were presented to the House Committee on Agriculture yesterday by Mr. Henry B. Nieland, who read the protest of that exchange against the passage of the bill. The protest states that the acchange of the bill. The protest states that the exchange heartily approves of that section of the measure defining options. The evils arising from trading in options, as there defined, were well known, and any legislature which would suppress such practice would be welcome. But the bill proposed to restrict trading future, which was a very different sort of trading and which included contracts which were confusing used the bill in a perfectly legitimate way.

It is a waste of time to tell you what you know, but it is not a waste of time to tell you that our SUITS are going fast. They have never been sold cheaper and they never will be; that they should sell for so little would be strange if the price was at wholesale instead of retail. You will be a good deal older before

A WASTE OF TIME.

We once heard of a man who wound his clock daily for twenty-five years before he discovered that it was an eightday clock, and that once a week would have been sufficient. Now, this man did not waste his time more effectually than those who spend it in running all over town in an attempt to secure better bar-

The houses that sell as good an article for the money as we do are few and far between, and that in passing us by for some other store you run great risks of not doing as well. You need not think about doing any better—that's out of the
